

## Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

### NORRON SICAV - Preserve - a sub-fund of NORRON SICAV class HRC NOK (LU1215859791)

Management Company: SEB Fund Services S.A.

## Objectives and investment policy

The sub-fund aims to generate a better return than its benchmark, the OMX-TBill.

In order to achieve its objective, the sub-fund will allocate its investments between different segments of the interest markets.

The main category of financial instruments are interest bearing instruments such as bonds and money market instruments issued by governments and their agencies, state and municipal entities, banks, corporation and companies that are domiciled or active in Sweden, Finland, Norway, Denmark and Iceland.

The sub-fund may invest directly in interest bearing instruments and may also invest in derivatives to achieve its investment objective or to mitigate risks.

The sub-fund may also invest up to 10 percent of its assets in other funds.

The reference currency of the sub-fund is SEK.

The currency of the share class is NOK.

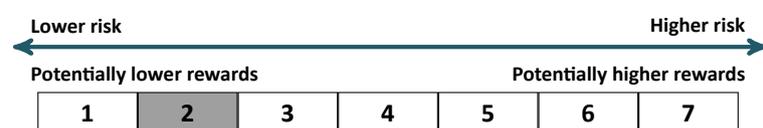

Under normal circumstances, you may sell your shares any day on which banks are open for business in Luxembourg, except 24 December.

These shares are capitalisation shares. Income and capital gains are reinvested.

#### Recommendation

This sub-fund may not be appropriate for investors who plan to withdraw their money within 3-5 years.

## Risk and reward profile

#### What does this synthetic risk and reward indicator mean?

- The shares of class HRC NOK are classified in category 2 because the value of the share may be subject to low variations and consequently the risk of loss and the opportunity of gain may be low.
- The risk category for this share class was calculated using simulated and historical data. The risk category may not be a reliable indicator of the share class's future risk profile. The risk category shown is not guaranteed and may change over time.
- The seven-category scale is complex, for example 2 is not twice as risky as 1. The gap between 1 and 2 might not be the same as the gap between 5 and 6. A category 1 sub-fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited.

#### Which materially relevant risks are not adequately captured by the synthetic risk and reward indicator?

- Credit risk: the sub-fund invests directly or indirectly in interest bearing instruments, for example bonds. If an issuer of such an

instrument cannot pay interest or the nominal amount at maturity, the investment can lose some or all of its value.

- Liquidity risk: low liquidity might result in that it would be difficult or impossible to buy or sell an investment instrument in a timely manner and that the price could be lower or higher than expected.
- The sub-fund may use derivatives. Due to their structure, the risk associated with these investment instruments may have a larger impact on the value of the sub-fund, than buying the underlying stock or investment instrument directly.
- Counterparty risk: the risk that a counterpart does not fulfill its obligations to the sub-fund (e.g. not paying an agreed amount or not delivering securities as agreed).
- Currency risk: the sub-fund may hold some of its investments in currencies other than the sub-fund's reference currency. Thus the value of the sub-fund may rise and fall due to currency movements.
- Operational risk: the risk of loss resulting from e.g. system breakdowns, human errors or from external events.

#### How can I get more information about the risks of the sub-fund?

Additional information concerning the risks of investment is indicated in the corresponding sections of the prospectus of the fund.

## Charges

The charges you pay are used to cover the running costs of the sub-fund, including the costs of marketing and distribution of shares. These charges reduce the potential increase in value of an investment in this sub-fund.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
<b>This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.</b>	
Charges taken from the fund over a year	
Ongoing charge	1.00%
Charges taken from the fund under certain specific conditions	
Performance fee	10% a year of any returns the fund achieves above the benchmark for these fees, the OMRX T-Bill Index.

The entry and exit charges shown correspond to a maximum percentage which might be deducted from your capital invested into the sub-fund. In some cases you might pay less. You may contact your financial advisor or intermediary to be informed on the actual entry and exit charges.

The conversion of some or all of the shares into shares of another sub-fund or another share class is free of charge.

The ongoing charges figure shown here is an estimate of the charges as this share class has not existed for an entire year; consequently, there is insufficient data available. The fund's annual report for each financial year will include detail on the exact charges incurred.

The figure of the ongoing charges excludes:

- Performance fee
- Securities transaction charges, except for the charges related to the purchase and the sale of target funds.

The performance fee invoiced for the share class for the most recent business year amounted to 0.02%.

For further information concerning charges, please consult the heading "Fees and expenses" of the fund's prospectus.

Additional information concerning the performance fee is also available in the prospectus.

## Past performance

There is insufficient data to produce a useful indication of past performance for the share class.

This sub-fund was launched in 2011 and the share class in 2015.
